

Power Sources Conference
Booth # 302/304
Sheraton Philadelphia City Center Hotel
Philadelphia, PA
June 12-15, 2006

Transistor Devices Inc. (TDI) will be exhibiting at the Power Sources Conference at the Sheraton Philadelphia City Center Hotel (formerly the Wyndham), June 12-15, 2006. Sponsored by several government agencies, the Power Sources Conference will focus on energy-generation and storage technology that is of interest to the Department of Defense and other government agencies.

Designed to meet the demanding requirements of the Military, TDI will be featuring its **Lithium Ion UPS** and its **Dynaload electronic loads**. TDI's power conversion products and systems bring high reliability and technological advances to hybrid electric vehicles, shipboard pulsed-power systems, and rugged battlefield applications.

2 kW Li Ion Ups

6kW Electronic Load

Transistor Devices, Inc. (TDI) is a global supplier of power systems solutions for the computer/networking, telecommunications, military/aerospace, medical, and industrial markets. TDI offers the broadest range of high technology power

conversion products available in the marketplace, including electronic loads, DC and AC power systems, power supplies, rectifiers, converters, and accessory equipment. Established in 1960, TDI is headquartered in New Jersey, has over 1000 employees and seven facilities located throughout the world. For more information on TDI, visit our website at www.tdipower.com.
